
Saved model probability	F3	F7
Logistic regression	0.317	0.160
Random forest	0.247	0.187
XGBoost	0.225	0.172
HistGradientBoosting	0.057	0.100

Case chosen chronologically, not for prediction success. Neighbor values are points, not complete curves.
Archive closure leaves the final 10 minutes unavailable at prediction. Missing/unusable bins remain gaps.
Retrospective observations illustrate outcomes only; three high usable bins are required for confirmation.
